Installation and mounting manual for EK-FC Terminal BLANK Serial
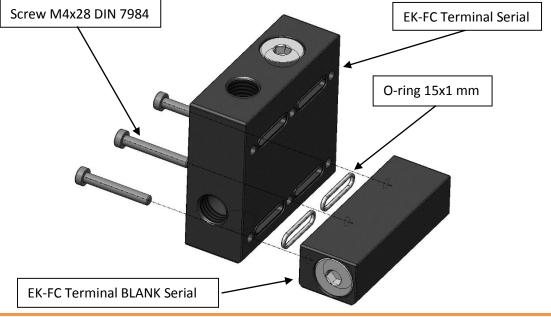

STEP 1: PREPARING YOUR HARDWARE

EK-FC Terminal BLANK Serial is a product meant to close the unused ports on any of EK-FC Terminal Serial product. However, it may be replaced by an adequate EK-FC water block once the user acquires or decides to upgrade the system.

STEP 2: ATTACHING the FC Terminal BLANK Serial to the EK-FC Terminal

Below is sample picture of EK-FC Terminal Dual Serial. Screw in three (3) enclosed M4x28 DIN 7984 screws to EK-FC Terminal BLANK Serial. Please do not forget to place O-rings in the EK-FC Terminal's groove. Make sure that they are set properly and not pinched in any way. If that condition is not met, a leak may occur.
